

GROUND FOR SPECULATION

Activity of Illinois Central Gives Rise to Renewed Railroad Gossip.

BELIEVE RADICAL CHANGE IS IN SIGHT

Honor of Dissolution of Union Pacific and Northwestern is Strengthened Because of Extension of Illinois Central to Omaha.

"I cannot help but think," said an especially well informed railroad official yesterday, "that there is much more fact than fiction in the reported dissolution of the existing combine between the Union Pacific and the Northwestern. This belief is considerably strengthened by reason of the activity of the Illinois Central in extending its line to Omaha.

"For what reason is the Illinois Central coming into Omaha? It is hardly probable that the local freight and passenger business, a proportional share of which it would naturally receive, is the incentive. The only incentive for this extension must certainly be because of assurance on the part of the Illinois Central that the Vanderbilt interests in the Northwestern are to lose their present absolute control of the line. The Vanderbilt and the interests of E. H. Harriman, Kubn, Loeb & Co. and Speyer & Co., who control the balance of power of the Oregon Railway & Navigation Company, Oregon Short Line, Union Pacific, Illinois Central, Chicago Terminal Company, Chicago & North Western, and the Illinois Central, are all interested in the extension of the line to Omaha, and it is assumed that the present condition of affairs is satisfactory to the combined interests of the stockholders, who control about seven times as much of the Union Pacific stock as the Vanderbilts, because all of the business which leaves the Union Pacific and goes over the Northwestern benefits only the Vanderbilts.

"I predict that just as soon as the Illinois Central gets into Omaha there will be a radical change of affairs and that the reported transcontinental line of Harriman, Kubn, Loeb & Co. and Speyer & Co. will be an absolute reality.

"There will be but one of two things for the Northwestern to do. Either extend its line from Casper to Ogden, in order to have a system capable of competing with the other transcontinental lines, or else enter into a track agreement with the Union Pacific, for instance, by which it can operate its trains from Omaha over the Union Pacific. This feature of railroading is becoming not uncommon now and its working so far has apparently been entirely satisfactory to the roads which have experimented with the plan."

The result of this rumor regarding the breaking away of the Union Pacific from the Northwestern is the subject of interested speculation and contemplation in railway circles throughout the entire country at the present time and it is expected that some definite action will soon be taken. There has as yet been no positive denial of the report by the officials who are familiar with the inside workings of the deal, neither has there been a confirmation, but the former fact gives rise to the general belief that the transcontinental line, including the Illinois Central, Union Pacific, Oregon Short Line and Oregon Railway & Navigation company, will soon be a reality.

The finale of the affair is expected as soon as Mr. Harriman shall resume his official railroad duties upon his return from his Alaskan trip. Together with his party, Mr. Harriman is expected to pass through Omaha within the coming week.

STATE STILL DELUGED BY RAIN.

Railroad Headquarters' Advice of Heavy Rains Friday Night.

Rains continue to fall with an abundance upon the farming regions of Nebraska and Kansas, and the railroad officials connected with the various Omaha headquarters are as happy as it is possible for them to be in contemplation of the big business which will result from the general prosperity following in the wake of these money-producing rains.

J. O. Phillips of the Missouri Pacific says: "We had a great rain Friday night all over our system. The reports which I have received indicate that the moisture was yet needed to complete the sowing of the ground, which was well started by the rains earlier in the week. The biggest crop in the history of the west is now assured unless the whole territory should be swept bare by a cyclone, which, of course, is altogether improbable."

Reports received by telegraph by General Manager Holdrege of the Burlington show that the rain clouds which threatened Omaha Friday night swept out through the state and emptied their moisture in great measure. Good rains were reported to have occurred Friday night at points throughout the entire four divisions of the Burlington—the northern, southern, western and Wyoming. There was an especial deluge in the southern division and the agents at Burlington, Colo., Omaha, Burchard and Wilber reported a heavy and steady down-pouring. The agricultural regions of Kansas and Nebraska are about as well soaked now as they ever were and railroad men are more than satisfied with the promising outlook.

Road Going Out of Receivers' Hands.

CINCINNATI, July 29.—Arrangements are now under way for taking the Baltimore & Ohio Southwestern road out of the hands of the receivers, Messrs. Harmon and Robinson, and the property will be turned over to the reorganized company at midnight next Monday. The articles of incorporation of the new company are at present being prepared and will be filed either today or Monday.

The reorganized company will be known as the Baltimore & Ohio Southwestern Railroad Company. The name is the same as the corporate name of the present company, except that the word "railroad" is to be instead of "road." The directors of the new company and officers will be elected next Monday. E. R. Bacon will be the president and W. M. Greene vice president of the reorganized company. Both gentlemen are at headquarters here now. General H. R. Cowen, the special master commissioner, who recently sold the property at the foreclosure sale, has executed and delivered the deed to the purchasers, who represent the reorganization committee.

Railroad Mortgage Filed.

DETROIT, Mich., July 29.—The Detroit, Rochester, Romeo & Lake Orion railway placed on record today to secure an issue of twenty-year first mortgage bonds to the Union Trust company, trustee, a mortgage of \$600,000, covering its entire system from Royal Oak to Rochester and extending to Romeo and Oxford, a total of forty-four miles.

Railway Notes and Personal.

J. R. Buchanan, general passenger agent of the Elkhorn, has returned from his trip to Hot Springs and through the Black Hills.

J. W. Munn, chief clerk in the general passenger office of the Elkhorn, accompanied by his wife, has gone to Spirit Lake, Ia., for a brief visit.

An extremely large and handsome elk's head, with a superb set of horns, has been sent to Miss Mary Harriman, daughter of E. H. Harriman, at Arden, New York, by President Burt of the Union Pacific.

W. J. Robinson, the capable station superintendent at the Burlington depot, has fitted out his office with a number of handsome wicker rocking chairs for the comfort of the callers who have business with him.

No definite action was taken by the local

DAUBS ON ITS WAR PAINT

Board of County Commissioners Prepares to Take a Fall Out of the City.

According to the tenor of two resolutions adopted by the Board of County Commissioners yesterday the county proposes to make it warm for the city by bringing one or two matters that have been fruitful subjects of controversy to an immediate issue. It is proposed to bring suit at once against the cities of Omaha and South Omaha for about \$20,000 alleged to be due for feeding city prisoners. At the same time the board decided to notify the city that it would require it to maintain the election booths free of expense to the county, and the commissioners alleged contemplated by the contract under which the booths were provided.

The matter of bills for feeding city prisoners has been in continual dispute for a number of years and several efforts to effect a settlement have resulted in complete failure. More recently the difference has been allowed to drop, and it is now brought to life by Commissioner Hootor's resolution, which was unanimously adopted by the board.

The resolution recites that there is now due the county from the city of Omaha \$12,166.01 and from the city of South Omaha \$8,014.35. It is declared that various itemized statements have been rendered to the city clerks of the two cities, but no attention has been paid to them. It is consequently ordered that the city of Omaha be instructed to proceed at once to collect the amounts by suits in district court.

The resolution in regard to the election booths was introduced by Commissioner Hootor and was also passed without opposition. It declares that July 23, 1897, the city and county entered into a contract to have portable iron election booths constructed, of which the city was to pay the one-fourth cost, the Board of Education one-fourth and the county one-half. It was also provided that the city should keep the booths in repair at its own expense. The resolution provides that, since the committee on public property and buildings of the city council has notified the county that the booths are unfit for use the mayor and council be notified of the terms of the contract and to have the booths at once made ready for use.

Another resolution by Connolly instructed the clerk of the district court that all fees now hereafter be collected in advance, with no distinctions whatever, and that he will be held personally responsible that these instructions are obeyed.

The rest of the session was occupied by the consideration of the monthly appropriation sheets and other routine matters.

REMEDY WORSE THAN DISEASE

Jamaicans Disappointed at Report of the English Commissioner.

KINGSTON, Jamaica, July 29.—The report of Sir David Barbour, late financial minister of India, who has been studying the sugar industry in its bearing upon the political situation, has been published here. The report has created a sensation and angry disappointment, being regarded as the result of a pre-arranged scheme to depoliticize the colony of a representative constitution, which would be likely to encourage the American annexation tendency by alienating the wavering sentiment of loyalty. The report may be summarized as follows: The condition of the colony, though precarious, is not altogether hopeless, but an immediate loan of \$1,375,000 is necessary, which would be warrantable only if the colony resigns its constitution, accepting imperial control. Public opinion considers that anything would be preferable to surrender of the constitution, the most conservative even whispering of annexation as an alternative.

Little Child Found Hanging.

CHICAGO, July 29.—A special to the Chronicle from Dallas, Tex., says: Fannin county, located seventy-five miles north of Dallas, is in a state of indignation over a terrible crime. An 11-year-old white girl, the daughter of Altono Newton, a farmer, was found by her father hanging lifeless from a tree near the family home. The child was left alone in the morning when her father went to his work. Newton immediately aroused the neighborhood. News was sent to Bonham, the county seat, seven miles distant, and Sheriff Phillips, major police of the city, headed by Chief Jackson, and the citizens, have searched diligently for a clue to the crime. The search was continued all day and justice John Steele, acting coroner, has been holding an official investigation. The people of Fannin county are terrified and anxious to know the truth. Two of them, may be the culprits.

Aid for Texas Flood Sufferers.

NEW YORK, July 29.—To help the sufferers by the flood in the Brazos valley, central Texas, the members of the New York Cotton Exchange arranged to sell the first lot of 99 cotton, sending the proceeds to the relief committee. Already over \$2,600 has been sent to the flooded district by members of the exchange.

Blank Book and Magazine Binding. A. I. Root, 1609 Howard street.

Returned to city. Dr. Race, 408 Paxton blk.

No Omaha Reports This Year.

The city council has as yet done nothing in the matter of printing the reports of the city officials and departments. The mayor's office received annually handomely bound copies of the reports of the other prominent cities of the country, most of them stamped in gilt on leather covers. The names of the city issuing them and the words "To the City of Omaha." These are issued in uniform binding, and when collected from year to year make a handsome and valuable library on municipal government.

Quick Work on Execution.

Mrs. Minna Wirth has filed injunction proceedings against Sheriff McDonald to prevent the attachment of her property at Tenth and Harney streets on a judgment for \$1,086 that was secured by the Calhoun trio of music hall performers a few weeks ago. Mrs. Wirth filed her application with the case to the supreme court, but the plaintiffs managed to get the execution issued before the bond was filed.

Mortality Statistics.

The following births and deaths have been reported to the office of the health commissioner during the last forty-eight hours: Births—Henry Ploss, 1915 Elm street, girl; James Morrissey, 2713 North E street, second street, boy; Max Moeller, 120 North Twelfth street, girl.

Deaths—E. P. Pantan, 2208 Grand street, 37 years; Nellie M. Carlin, 2408 Capitol avenue, 2 years; Emily Banks, Eleventh street and Grand avenue, 1 year.

Diamond rings, \$15 to \$500. Edholm.

Changes at the Postoffice.

Authority has been given the custodian of the federal building to move the stamp department on the ground floor across the corridor into the room formerly occupied by the architect of the building. The room vacated by the stamp department will be occupied by the carrier department. Stamp windows will have to be cut in the wall of the new room.

Deaths being received on repairs to the steam plant of the federal building. Some minor changes and additions will be made, among them an increase in the radiation.

Lawless Newcomers in Alaska.

ST. MICHAEL, Alaska, July 17.—(Via San Francisco, July 29.)—Lieutenant Spalding, Third artillery, U. S. A., whose detail of twenty-five men has been relieved from duty at Cape Nome, explains his action in dispersing a miners' meeting on July 19 on the ground that a large number of lawless newcomers proposed to pass resolutions throwing open the district for re-occupation. They had a large number of arms and claims in the district. This, the lieutenant says, would inevitably have resulted in much bloodshed, so he stopped it at once.

BEYNS FREE OFF CONTINUES.

By request we continue to give free during July a beautiful hand-colored picture of yourself, handomely framed, with each new dozen platinum cabinets or larger photos. These water colors cost no less than \$2.50 anywhere else. We give one free, colored true to nature with each new dozen photos. Heyn, 313-15-17 S. 15th st.

ROOSEVELT IS SENSITIVE.

NEW YORK, July 29.—Governor Roosevelt has written to the committee on plan and scope of the Dewey reception saying that he does not think it possible or desirable to have the rough riders take part in the land parade in this city when Dewey arrives. The governor says: "I have grown a little sensitive about having the regiment appear in any public function and make it look as if it was advertising itself."

DEWEY TAKES A LOOK AT HORSES.

TRIPSTE, July 29.—Admiral Dewey, accompanied by Captain B. P. Lamberton, commander of the United States cruiser Olympia, and Flag Lieutenant Thomas B. Brumby and Consul Door, visited the imperial stables at Lopezita today, returning on board the Olympia this afternoon.

CARD OF THANKS.

Mr. and Mrs. H. E. Beckman wish to thank their neighbors and friends for the kindness and sympathy extended to them at the death of their beloved baby, Alma.

MESSAGE BOY MAKES GOOD TIME.

BUFFALO, N. Y., July 29.—Arthur V. Roe, the one-eyed postal telegraph messenger, who left New York Sunday morning for Buffalo this morning in fine condition. He left Buffalo this afternoon for Erie. Roe passed the automobile between Syracuse and Geneva. He is averaging sixty-five miles a day.

POISON STORY A HOAX.

SAN FRANCISCO, July 29.—The mystery of the sending of a basket of poisoned fruit to Miss Florence Campbell of 610 EIGHTH street has been solved by Chief of Police Lees and the result shows that there was no attempt made to take life and that no one was even made ill by the poisoned fruit. It appears that Miss Campbell sent the poison to herself in furtherance of a little plot by which she hoped to keep her name from figuring as co-responsient in a divorce suit.

STORY IS PUNISHED UTRINE.

PORTLAND, Ore., July 29.—A special to the Oregonian from San Francisco says: The story sent out from Kansas City purporting to describe how Oregon troops punished Deserter Hayes is pronounced by members of the Oregon regiment entirely untrue. Hayes was a member of the California regiment and was found dead in the trenches captured by his own regiment February 5. No Oregon or Kansas troops were engaged in that vicinity.

The Plugger's Story

A plugger is a man sometimes called a "doc." When he gives you a prescription he don't give you a chance to ask where to have it filled, but insists on you going to a certain drug-gist. He is in the employ of a 24 pt. who pays him monthly—his salary being 10c on each prescription and office rent free. You know "me and the plugger" don't go fishing together, and naturally we don't expect a kind word from him—nothing but a "roast," which we get every day. He says we are incompetent and that our drugs are of an inferior quality. When a patient of his refuses to go to his 24 pt he tells them to go anywhere but to Schaefer.

Relieves Strain

Man who stand or walk a great deal can obtain relief and a sense of ease by wearing suspenders. You have more ease with big straps at 25c and 75c. At the latter price we have one style in white silk both cloth, the other fine, closely woven black silk. At 35c and 50c we have two kinds of silk both with just the one band around the body (no leg straps). The best kind is a little heavier silk than the other. All packages sent postpaid upon receipt of price. Write for catalogue of rubber goods.
